

GREAT SACRIFICE SALE,

FOR SIXTY DAYS

Of 25,000 dollars worth of Dry Goods, Notions, Hats, Caps, Boots, Shoes and Gents Furnishing Goods. For the purpose of consolidating our business and to make room for our El Dorado stock, we have thrown

OUR ENTIRE STOCK ON THE MARKET

REGARDLESS OF COST OR PROFITS.

WE MEAN BUSINESS, and now is the time for you to secure such bargains as were never before offered in Allen County. This is no auction stock, but was bought in the best markets in the East and from the leading manufacturers of the United States. Don't fail to come early before the stock is broken, for we have marked our goods at such prices as will surely make them sell. Special attention is called to our line of Clothing. We can save you from 25 to 100 per cent. by purchasing now. In Ladies, Misses and Children's Shoes we have the best line and most complete stock ever carried in the county. This is no windy verbiage, but we mean every word we say and by calling we will convince you of the fact.

McCLURE BROTHERS.

Three months, 50 cents. Single copy 5 cents.

FRIDAY, NOVEMBER 5, 1898.

TO OUR SUBSCRIBERS.

The subscribers of the REGISTER will remember that we have not been in the habit of dunning them. We do not remember that we have said anything on the subject for the past two years. Money has been hard to get during that time, and knowing this we have not crowded those who are indebted to us. But now that times are improving somewhat, we would most earnestly request those who are in arrears on our books to call in at their earliest convenience and settle. There is over a thousand dollars due us, from nearly as many persons. The amount that each one owes is but a trifle, but the aggregate amount makes a sum that will very materially assist us in meeting heavy obligations that will soon become due. The money that you owe us is ours, and you ought to pay it. We have accommodated you by giving you credit when times were hard with you; we hope that you will return the courtesy, by making a little extra effort if need be to pay what is due us now that times are hard with us. If you cannot pay it all, pay part of it. We trust that we may hear in a financial way within the next 30 days from every delinquent subscriber, and that it will not be necessary for us to send a personal statement of account.

You can't do it again.

We understand that Gov. Robinson has expressed his intention to retire to private life. The Governor knows how to take a hint.

The Third District did nobly. It has saved the county the calamity of a year of democratic mismanagement of its business affairs.

Our 22 candidates the republicans elect 20. There is nothing in that record to make us want the hills to fall on us or the rocks to hide us.

We have cast our pearls before swine and they have trampled them under their feet and turned again and rent us. Thus was it written.

The democrats elected by the merest chance two candidates out of twenty-two, and yet they crow. Some people are thankful for mighty small favors.

THE REGISTER thought a campaign of principle and decency would win. The REGISTER was mistaken. The only way to fight the devil is with fire.

THERE was a rumor on the streets yesterday to the effect that the people of Humboldt kept on voting for Miss Chamberlain all day Wednesday; but we guess it was only a rumor.

SAYS the New York World: "Kansas is the poor man's home. She is but 25 years old, and more people have risen from poverty to affluence in this State, in this short time, than in any other State in the Union. She has acquired a population of 1,300,000 and an assessed valuation of \$400,000,000. Cause: Rich soil, good climate, favorable location and good settlers."

A CORRESPONDENT of the Lyndon Journal gives the following recipes for keeping cider sweet which may be of interest to some of our fruit growing readers:

First. To one barrel of cider add half a pound of white mustard seed, and half an ounce of oil of saffron.

Second. To each barrel of cider add two and a half pounds of rock candy, and a half pound of rare beef steak.

In using either recipe let the cider reach the stage of fermentation desired before using the recipe, and keep the air excluded as much as possible.

THE election last Tuesday made clearer than it has ever before been made in this county, the necessity of a law for the protection of the ballot box from split tickets. At all, or nearly all, the polling places in the county there were tickets headed "Republican Ticket," printed so as to resemble as nearly as possible the regular republican ticket but with the names of one or two or three democratic candidates substituted for those of the republican candidates. The tickets were gotten up with the deliberate intention of deceiving voters, and there can be no doubt that it did deceive enough of them in this county to change the result in one instance and perhaps in two instances. It is no answer to say that the voter should read his ticket. With twenty-two names on the ballot it is not singular that a great many voters should not be familiar enough with the names of the candidates of their party to detect a substitution and should yet wish to vote a straight ticket. There is no excuse for it. The issue of such a ticket is prima facie evidence of intentional deceit. There can be no other design in issuing it than to deceive a careless or ignorant voter. That this is true is shown by the fact that the method is only adopted by minority parties who can only hope to gain their ends by resorting to desperate and unusual means. It ought to be made a criminal offense for any one to tender a voter such a ballot, and if such an one find its way into the ballot box it ought to be the

duty of the returning board to cast it out entirely, as if the whole ticket were so much blank paper. This is the law in a great many states and we hope to see it placed upon the statute books of Kansas this winter.

We find the following eloquent tribute to the young men of Kansas, by one of the brightest of them, Prof. W. H. Carruth, of the State University, in an address recently delivered before the American Woman's Suffrage Association:

I believe with others who have spoken here that Kansas is the most promising field in the Union, and that she will have the honor of being the first state to make suffrage universal. The old men of this state came out here as young men to fight for freedom—and I don't believe they meant that black men had any better claim to freedom than their own wives, who helped them in the struggle. The young men of Kansas were born with the spirit of freedom and the love of equality and right in them, and I know that they are too fair and too chivalrous to deny their mothers any right or privilege which they claim for themselves. I had the honor to be born at Oswatimie, and I believe I know this state. They tell us that we are smooth and smooth, and lack in culture. May be we are. Most of us have had a deal of rough and tumble work to do, and that isn't particularly conducive to culture. But, Sir and Madam, the young men of Kansas have something that is better than culture—they have in their blood and bone a scorn of meanness and bullying and cant, and a respect for worth and a love for fair play which I believe may keep the state on the skirmin' line; as was the territory in '56. We may be lacking in polish, but we have material that will shine mightily when it is rubbed up, and not all be worn away in the process, please God.

GENERAL ELECTION NOTES.

The returns from the country generally indicate large republican gains in many localities where they were least expected. The republican majority in the Senate will be retained, and the democratic majority in the House will be reduced nearly half.

"Horizontal Bill" Morris is defeated by about 500 majority. Springer, is also defeated, and two other democrats, giving the republicans a gain of four congressmen in Illinois.

John G. Carlisle, speaker of the last House, appears to be defeated by a labor agitator.

In New Jersey the democrats elect their Governor by a small majority. The legislature remains republican.

"Bob" Taylor, democrat, is elected Governor of Tennessee by 30,000 majority and the democrats gain one congressman.

Indiana has gone democratic by 10,000 majority. Legislature democratic with congressional delegation about as before.

New York City has elected Hewitt, democrat, mayor, by about 25,000 plurality. The republicans gain one congressman in the State.

Connecticut went democratic.

Nevada went republican and elected a republican legislature, which will probably leave Senator Fair at home. The Virginia delegation in congress will probably stand four democrats and six republicans, a net republican gain of four congressmen.

Wisconsin went republican by a small majority. Wm. Warner, republican, has been re-elected to congress from the Kansas City district.

The southern states, except as noted, have given their usual Bourbon majorities.

WEATHER PREDICTIONS.

While we rarely see any one who will admit that he puts any trust in weather prophets, we have yet noticed that nearly every one likes to read their predictions; hence we quote the following from Prof. Blake's Future.

"November will be a stormy month, though the storms will be mixed with a fair amount of pleasant fall weather. There will be plenty of rain in most places, and excessive in some places, with cold snaps and severe frosts.

While December may start in cold, yet it will not last, as it will be warmer than November till about the 20th, when winter will set in in dead earnest with a blizzard. I do not, however, think this first blizzard will be quite as severe as that of January.

After about the 20th of December, 1898, winter will continue with unabated and increasing fury till April, 1899. But it does not necessarily follow that each day will be colder than the preceding day. There will be several mild spells with rain in the south, but there will be nothing that could be called a 'thaw' during the entire winter, after December 20th.

February will be colder than January, and while March will not be quite so cold as February, yet it will be a cold, stormy month.

There will be considerable snow with numerous severe snow blockades in the North and much rain in the South during winter.

Drunkennes or Liquor Habit can be cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken the Golden Specific in their coffee without their knowledge, and today believe they quit drinking on their own free will. No harmful effects result from its administration. Cures guaranteed. Send for circular and full particulars. Address in confidence GOLDEN SPECIFIC CO., 185 Race St., Cincinnati, Ohio.

I dreamed a dream the other night; When nothing could be seen; I dreamed that best of druggists had, A Freedom River been. Next morning at the break of day, I rose with an aching spine; But soon got cured of racing pain, By taking Smith's Bile Beans. Two bits per bottle.

Sold by Dr. C. GUINNAN.

COUNTY NOTES.

FROM REGISTER REPORTERS

What is Being Done Throughout the County—Events and Gossip of the Week.

General Tidings.

The railroad will soon be at Iola, as they have begun work on it again. Spelling school at Pumpkin College was good in every respect. The scholars being excellent spellers, made things rather lively.

Mr. B. N. Gray is also holding his head rather high, being the father of a new girl. Mother and child doing nicely.

A dance at Mr. Webster's Tuesday night, was a grand affair. It was a surprise given by Misses Lee and Rosa Lee, as a farewell to Eddie and Nettie who will leave with their parents for Michigan Friday.

All the young folks regret their leaving, as they will miss the school and the friends. R. K. Redfield was down from Colony Friday for the purpose of starting a singing school and he hopes he will meet with good success, as it is just what is needed here.

Carlisle's Correspondence.

The weather has been somewhat cooler since our last writing.

The Barber brothers spent Sunday with friends near this place. We are glad to see them among us, and hope they will call again. While on their way to the barber shop, section hands ran over a dog on the track, causing a wreck. Mike Troutwine was thrown from the car and badly hurt.

The election went off with that quietness for which Kansas is so distinguished.

Died, at his home near Maple Grove, the infant son of S. G. Jordan. The funeral services were held at Mr. Jordan's Sunday, October 31. The bereaved family has the heart-felt sympathy of the entire community. In the midst of their sorrow, they are also helping in the funeral expenses.

There were about one dozen school teachers at the Maple Grove Literary last Saturday night. That the spirit of Labor Organization is detrimental to the welfare of the Union is a fact which will be led by Mr. Kirt, the negative by Mr. Am. Jones. An interesting programme, and a good time was enjoyed.

L. X. Pacer.

LaHarpe Locals.

Mrs. Winslow died and was interred in the cemetery last Saturday. She leaves a husband and four small children to mourn her loss. It seems so sad to lose a mother above all others. Her husband, Mr. George Fox, has been bought the Fox property in the village and have taken possession.

A Mr. Mills has rented the Price house and is occupying it.

Dr. Haines' family have reached here and they are occupying the Doyle property. The church is nearly finished, the last coat of plastering is being put on and will soon be ready to hold services in.

Items From All Around.

Mr. Editor—We have had several light showers lately, but not enough to do much good, though it is still cloudy and we are hoping that election day will bring us a good rain.

The farmers are shucking corn and driving their cattle to water, of which occupations the latter seems to take the most time, as some have to drive three miles.

The long expected Fall-wedding—Harry's wedding took place on last Wednesday evening at the bride's parents, and the guests spent the evening in "tripping the light fantastic." A pleasant time is reported. The young men of this vicinity seem very much excited over the affair and the general inclination seems to be to go and do likewise, we confess to that same inclination, but our girl objected, so we are still "teaching."

Mr. John Wise and wife returned from Erie, on Thursday. Emmet and Angie batched while they were gone.

Mr. John Vancil and family returned last week to this part of the county and have moved on Mr. Bird's place.

We were sorry to hear of the bereavement of Mr. and Mrs. Hockett to the death of their infant. The body was interred in the Pleasant Valley cemetery, on Monday afternoon. The family have the sympathy of the community.

Mr. B. F. Drennon is down from Baldwin City visiting with his friends and relatives.

Mr. Thos. Edwards of Illinois accompanied by his wife is visiting his sister, Mrs. Kate Clark.

On Sunday afternoon, some little boys set fire to the prairie south of A. P. Day's place. Fortunately, it was discovered and put out before any damage was done. Parents should be careful about letting their children carry matches, as many of them cannot realize the damage they might do.

There will be prayer-meeting at the Pleasant Valley church on Sunday and Thursday evenings of every week. Everybody is invited to attend.

If this does not reach the waste-basket, I may call again. Respectfully, U. M. GURIN.

Neosho Valley Notes.

Rev. Strop of Genett has given this circuit as his field for ministerial work during the coming year and will deliver his first discourse next Sunday.

Miss Jennie Cleaver has returned from a long stay at Leavenworth.

Mr. B. F. Drennon is down from Baldwin City visiting with his friends and relatives.

For Cholera, Diarrhoea, Dysentery, Inflammation of the Bowels or Colic.

Take internally from five to ten drops of Darby's Prophylactic Fluid in a glass of water every hour or two till improvement takes place. There is no danger in taking more of it and more frequently if occasion requires. In chronic cases, or when the stomach refuses to retain anything else, use injections of the Fluid and water. We have never known a case that did not readily yield to such treatment, and it saved the lives of many.

NO CHANGE NECESSARY. It is not necessary to change the climate which you live in or travel about for the restoration of health. If you have weak lungs, coughs, colds, croup, consumption or bronchitis, Boggs' Cherry Cough Syrup is warranted to cure you. Sample bottles free at Goodhue & Evans.

Full doses of Chamberlain's Cough Remedy will prevent a cold if used as soon as the first symptoms appear.

Headache, bilious disorders and constipation are cured by St. Patrick's Pills. They are the most pleasant and most effective physic in use.
